

Add just the right amount of stabilization to your next T-shirt quilt!

This lightweight, 100% polyester fusible interfacing is made specifically for stretchy, nonwoven T-shirt material, but it works great on wovens such as cotton, too. Even beginners can have the confidence that their projects will come out looking great.

Turn your T-shirts into memory quilts, scarves, pillow covers, or totes, or branch out and use this nonwoven, single-sided interfacing for other craft and sewing projects, including garments and hats.

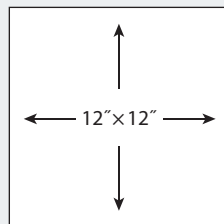

STABILI-TEE™ FUSIBLE INTERFACING
